

Task 1-Web Form

Program

```
from selenium import webdriver
from selenium.webdriver.common.by import By
from selenium.webdriver.support.ui import Select
driver = webdriver.Chrome()
driver.get("https://www.selenium.dev/selenium/web/web-form.html")
text_box = driver.find_element(By.NAME, "my-text")
text_box.send_keys("Python Selenium")
driver.find_element(By.NAME, "my-text").send_keys("John")
driver.find_element(By.NAME, "my-password").send_keys("Password123")
driver.find_element(By.NAME, "my-textarea").send_keys("Learning Selenium")
radio_buttons = driver.find_elements(
    By.CSS_SELECTOR, "input[type='radio']"
)
if not radio_buttons[0].is_selected():
    radio_buttons[0].click()
checkboxes = driver.find_elements(
    By.CSS_SELECTOR, "input[type='checkbox']"
)
for checkbox in checkboxes:
    if not checkbox.is_selected():
        checkbox.click()
country = Select(driver.find_element(By.NAME, "my-select"))
country.select_by_index(1)
for option in country.options:
    print(option.text)
input("Press ENTER in the terminal when you want to close the browser...")
driver.quit()
```

Output

Web form

Text input Python SeleniumJohn	Dropdown (select) One	Color picker <input type="color" value="#4b0082"/>
Password 	Dropdown (datalist) Type to search...	Date picker
Textarea Learning Selenium	File input Choose File No file chosen	Example range <input type="range" value="50"/>
Disabled input Disabled input	☒ Checked checkbox ☒ Default checkbox ☒ Checked radio ☐ Default radio	
Readonly input Readonly input	Submit
